

MediStep™

Total foot-care solution

See | Measure | Share

Full control of your foot health. See, measure, share with your doctor hard to see areas and wounds.

What's in the box:

- Footrest
- Tray
- LED light
- Battery pack
- Storage with mirror
- Cell phone holder
- Remote control

Comfortable

With its five adjustable tilt angles, two soft pads and slip-proof footstep MediStep ensures that you can take care of your feet in comfort. The durable steel legs with rubber caps provide stability on any type of surface while making sure they're held tight against it at all times so there's no slippage!

Convenient

MediStep comes with a clip-on storage with a mirror, an easy-to-use cell mount, and a remote control, so you can check the health of both feet conveniently. Early detection is key when it comes down to getting wounds treated quickly before they become misshapen or infected.

Compact

The size-conscious design uses every inch to organize your foot care space and keep it neat. MediStep is lightweight, portable, and easy to carry around. It takes minimum space due to the ergonomic design and foldable legs. Simply collapse it, put away for storage or hang it.

Features and Benefits

- Easily take pics of your feet to share with your physician
