

# Invia Motion® NPWT System

## PERSONAL-PUMP CONVENIENCE WITH REUSABLE PUMP PERFORMANCE

### Personal-pump convenience

- **Compact** design for **comfort** and **mobility**
- **Simple** inventory management

### Reusable pump performance

- **Intelligent Pressure Control** delivers set pressure at the wound site<sup>1</sup>
- **Dynamic Exudate Removal** helps prevent blockages<sup>1</sup>
- **Canister based system** for efficient exudate management

**Invia Motion provides an efficient solution to support clinicians with Negative Pressure Wound Therapy management in all patient care settings.**

The Invia Motion delivers the convenience of a personal pump while offering clinical flexibility with a choice of pressure settings, therapy modes and compatibility with both foam and gauze dressings. The Invia Motion is appropriate for use in all patient care settings. The compact design and quiet operation helps patients to comfortably go about daily activities for the duration of therapy.

Invia Motion innovates the standard of care. With a double lumen tubing design from the pump to the wound, the pump actively controls the set pressure at the wound site. In addition, small blockages in the tubing are resolved by the pump with assurance that clinicians and patients will see and hear notifications for any unresolved blockages.

The **Quick-connector** interface provides **easy and secure** attachment<sup>2</sup> between the dressing tubing and the canister tubing.

Double lumen to the wound

FitPad

Quick-connector

**Key features at a glance**

- Providing NPWT in the hospital, in transition, and at home
- Clear user interface supported by 4 buttons and a digital display
- Discreet carrying case, battery autonomy of 10 hours and compact design for comfort and mobility
- Preset pressure settings from -40 to -175mmHg (-125mmHg default setting)
- Easy and secure tubing attachment with the Quick-connector
- Choice of therapy runtimes to meet clinical needs

**Technical data**

Medium vacuum  
- 40 mmHg to -175 mmHg

Battery life  
> 10 Hours

Modes: Constant and Intermittent  
Tubing: Double Lumen Tubing  
Canister: 150 ml Canister/Tubing set

Low flow  
1 l/min.

350 g  
0.88 lbs  
without canister

H x W x D  
99 x 98 x 52 mm  
3.90 x 3.86 x 2.05 inch

2-year warranty
